Meeting Goals

- Bring together UK life sciences and medical imaging communities
- Initiate development of a coherent UK strategy for Bioimaging
- Describe current status of BioImagingUK and Euro-BioImaging
- Work with funders to create a strategic roadmap for developing and funding scientific imaging in the UK
- Review needs and aspirations for national/regional/shared facilities for imaging technology development and access, and training

NOTE: Documents describing the rationale for the goals will be posted on BioImagingUK web site (and thus available to ALL members of the community) by 3rd week in June.
